SUMMARY

Full-Stack Software Engineer with experience building web applications using React, Next.js, and Node.js. I have worked on AI-powered applications, booking platforms, and e-commerce projects, with hands-on experience in PostgreSQL, MySQL, and MongoDB. I'm comfortable working with REST APIs, authentication using JWT and OAuth, and integrating services such as Stripe. I enjoy learning new technologies, solving practical problems, and turning ideas into working applications. Currently looking for a Frontend or Full-Stack role where I can grow and contribute to a product-focused team.

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, HTML, CSS
Backend: Node.js, Express.js, Laravel, PHP, REST APIs, Prisma
Databases: PostgreSQL, MySQL, MongoDB
Tools & Practices: Git & GitHub, Docker, Agile Development, CI/CD, Redux, Zustand, Axios, Postman, Figma, OOP, MVC
AI: OpenAI API, AI SDK, LLM Integration, Prompt Engineering

PROJECTS

AI-Travel-Plan **Next.js, TypeScript, Tailwind CSS, Shadcn UI, MongoDB, OpenAI, AI SDK, API Routes**

🔗 <https://travel-plans-delta.vercel.app/>

- Built a conversational AI agent (OpenAI + AI SDK) that generates complete multi-day itineraries — hotels, restaurants, and cost estimates — from natural language prompts
- Implemented dynamic plan editing (add/remove days, swap destinations or activities) with real-time state sync via MongoDB
- Added PDF export for offline access to generated travel plans

EAK — Smart Accommodation Booking Platform **HTML, JavaScript, Tailwind CSS, Laravel, MySQL, MVC**

🔗 <https://github.com/Abdulhalimg2002/EAK-HOTEL>

- Designed a real-time availability engine to prevent double-bookings across concurrent users
- Implemented role-based access control (RBAC) for Admin, Host, and Guest with distinct permission levels
- Built property listing, review, and rating functionality end to end

E-commerce Platform **Next.js, TypeScript, Node.js, Prisma, PostgreSQL, Stripe, Zustand**

🔗 <https://e-commersss.vercel.app/>

- Built responsive, reusable UI components with Tailwind CSS and shadcn-ui
- Implemented secure authentication and authorization using JWT and Google OAuth
- Developed RESTful APIs with Express.js and Prisma ORM over a PostgreSQL database
- Integrated Stripe for secure end-to-end payment processing
- Built an admin dashboard for managing products, categories, orders, and users

EXPERIENCE

Freelance Full-Stack Developer **Self-employed**

Istanbul, Turkey 2024 – Present

- Design and build custom websites, booking systems, and e-commerce stores for independent clients
- Own the full project lifecycle — requirements gathering, design, development, deployment, and client handoff
- Delivered digital menu solutions for restaurant clients

Frontend Developer Intern **ScrambleBit**

Istanbul, Turkey 2023 – 2024

- Contributed to multiple client-facing web projects, improving page load performance and cross-browser consistency
- Worked with senior developers to convert Figma designs into pixel-accurate, responsive UIs
- Built responsive, accessible interfaces using HTML, CSS (Flexbox & Grid), and modern JavaScript
- Used Git for version control across a mobile-first, multi-project workflow

EDUCATION

Bachelor of Science, Software Engineering **Üsküdar University**

Istanbul, Turkey 2020 – 2025

- GPA: 3.25 / 4.0
